Explosives Demonstration at the Range Complex

On Friday, June 25 at 11:30 a.m., an explosives demonstration will take place at the Boulder City Range Complex, located in Eldorado Valley, south on US 95 near the Motocross track, at mile marker 52, approximately four miles south of the Railroad Pass (US 93/95) interchange.

Don York, Resident Agent in Charge of the Alcohol Tobacco and Firearms Las Vegas Field Office, will be facilitating the demonstration. The main explosives demonstration will begin at 11:30 a.m., and it will be part of a training class for local and state law enforcement.

Immediately after that demonstration, RAC York will host a fireworks demonstration for anyone wishing to see what "harmless" fireworks can do to the human body. Parents, children and the general public are welcome to attend. If attendees get to the range by 11:30 a.m., they will also be able to observe the larger explosives demo that will involve various types of heavy explosives.

With the 4th of July right around the corner, this is a perfect time for everyone to take a first-hand look at what safe, harmless fireworks can actually do to those using them.
